

**GET UP TO \$5,000** in accessories with the purchase of select Mitutoyo roundness/cylindricity, surface roughness and contour measuring systems.

Boost productivity and performance with cost-effective **FORM ACCESSORY PACKAGES**

**SURFACE ROUGHNESS ECO-FIX PACKAGE**

Purchase a SV-2100M4 or a SV-2100S4 and get your choice of Eco-Fix Kits

BUY

valued up to **\$2,000**

OR

CHOOSE ONE

**Eco-Fix Kit Form-S**  
(52 pieces; adapter plate: 150 mm)  
[Link to Parts List](#)

OR

**Eco-Fix Kit Form-L**  
(74 pieces; adapter plate: 200 mm)  
[Link to Parts List](#)

- Ideal models for small footprint and areas of the lab or shop floor.
- Dedicated processor models feature a column axis for versatility.
- Customize your work fixture using the various components supplied with our Eco-Fix Kit.
- Color code your set-ups for quick and easy assembly.

**SURFACE ROUGHNESS COLUMN STAND PACKAGE**

Purchase a dedicated processor or PC model and get a manual column stand

BUY

OR

GET

Stand only  
(Drive unit not included.)

valued at **\$1,600**

- Column stand allows for stable measurements at varying heights.
- Vertical adjustment range of 250mm can accommodate tall and large parts.
- XY Stage and leveling table can be integrated into the column stand.
- PC model uses Formtracepak software for added functionality and analysis features.

**ULTIMATE SURFACE ROUGHNESS/CONTOUR PACKAGE**

Purchase a SV-C3200H4 system and get a rotary vise and a cross-travel stage or your choice of Eco-Fix Kit

BUY

OR

GET BOTH

Rotary vise

Cross-travel stage

OR

CHOOSE ONE

**Eco-Fix Kit Form-S**  
(52 pieces; adapter plate: 150 mm)  
[Link to Parts List](#)

OR

**Eco-Fix Kit Form-L**  
(74 pieces; adapter plate: 200 mm)  
[Link to Parts List](#)

- Combine both surface roughness and contour measuring analysis in a single machine. Additional accessories allow for both simple and challenging fixture setups.
- Switch your measuring head from surface roughness to contour by mounting the applicable Z-axis detector to the X-axis drive unit.
- XY stage and rotary vise or choice of Eco-Fix Kit makes any workpiece measurable.
- Granite column stand and Formtracepak software are included.

valued up to **\$5,000**

**CONTOUR SYSTEM XY STAGE & ROTARY VISE PACKAGE**

Purchase a CV-2100N4 system and a manual column stand and get both a rotary vise and a cross-travel stage

BUY

AND

GET BOTH

Rotary vise

Cross-travel stage

- Manual column stand offers 250mm in vertical travel and inclination range of  $\pm 45^\circ$ .
- XY stage and rotary vise completes the system.
- Comes with Formtracepak for full contour analysis and inspection report creation.
- Key operation buttons are mounted onto the X-axis drive unit, eliminating the wired joystick box.

valued up to **\$5,000**

**ROUNDNESS MEASUREMENT CENTERING CHUCK PACKAGE**

Purchase any RA-120 model or RA-1600M and get a centering chuck

BUY

OR

GET

Centering chuck

- Processor or PC-based RA-120/P model measures simple roundness and coaxiality with high accuracy.
- RA-1600M using Roundpak offers various measuring capabilities including cylindricity.
- Centering chuck capable of holding parts up to OD: 2.95" (75mm) offers wide range of application solutions.
- Knurled ring facilitates fast part load and unloading.
- Reversible jaws allow for part fixturing, internally and externally.

valued at **\$2,500**

**ROUNDNESS/CYLINDRICITY CENTERING CHUCK/ECO-FIX PACKAGE**

Purchase an RA-2200 system and get a centering chuck and your choice of Eco-Fix Kits

BUY

AND CHOOSE ONE

GET

Centering chuck

\*Shown with optional stands

**Eco-Fix Kit Form-S**  
(52 pieces; adapter plate: 150 mm)  
[Link to Parts List](#)

OR

**Eco-Fix Kit Form-L**  
(74 pieces; adapter plate: 200 mm)  
[Link to Parts List](#)

- Complete the ultimate roundness and cylindricity system with one of the two expansive Eco-Fix Kits that allow for any type of part fixturing.
- Build your own fixture to securely hold parts. Choose Eco-Fix Kit Form-S with a 150 mm adapter plate or Eco-Fix Kit Form-L with a 200 mm adapter plate.
- Sets are interchangeable with other Eco-Fix Kits and systems used for CMM and Vision products.

valued up to **\$4,000**

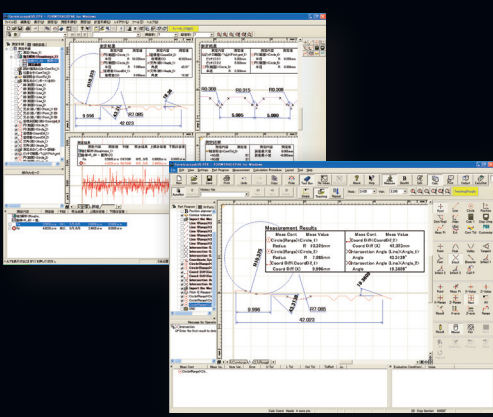

**Analysis Software**

Surface Roughness/Contour measurement/Analysis software

**Powered by FORMTRACEPAK**

**FORMTRACEPAK**

FORMTRACEPAK functions offer total support for measurement system control, surface roughness analysis, contour analysis, contour tolerancing, and inspection report creation.

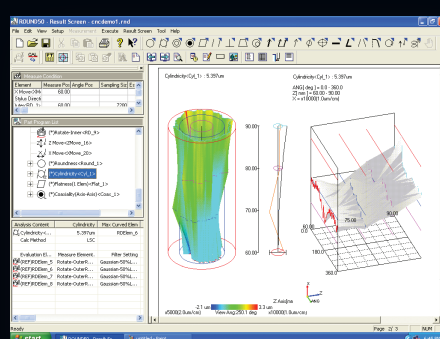

Roundness/Cylindricity measurement/Analysis software

**Powered by ROUNDPAK**

**ROUNDPAK**

A wide variety of parameters including those for roundness/cylindricity, as well as flatness and parallelism, are provided as standard features. You can visually select these parameters using icons.
