Part # Inch

BUNDLE Description

SYSM4_DK200V01 200 mm Dock, 200mm x 200mm plate + VIS-KIT-01

SYSM4_DK200V02 200 mm Dock, 200mm x 200mm plate+ VIS-KIT-02

The Inspection Arsenal® LEAN fixture concept is available for Vision systems.

Docking rails fit the stage of any optical machine. Docking rails are black anodized aluminum. Clear, polycarbonate plates—rails and plates are 12.7mm thick with M6 holes.

Inquire about Inch Options

This bundled system includes a work-holding kit (two options available). Add docking rails on sides of stage to create more “locations” for inspection. Order blank plates and add only holes you need for greater savings.
