### NEW !

American  
Designed &  
Manufactured

The new Starrett **W4900-1 Touchscreen Electronic Indicator** combines innovation and versatility with unparalleled ease of use. Built for shop floors, quality labs, inspection areas and in-process applications, this highly capable IP67 indicator can also be used in OEM applications on custom build and design tools and machinery.

### FEATURES

- Large, easy-to-read and navigate touchscreen user interface
- Wireless SPC output for data collection with DataSure® 4.0
- Compliant with ISO and ANSI/ASME accuracy specifications
- IP67 protection
- Rugged: Built to withstand hazards common to shop floor environments
- Rechargeable battery with long service life
- Customizable auto-off settings
- Analog and digital readouts
- Customizable backlighting function
- Easy-to-navigate settings with multi-option menus for dial configuration, graduation, presets, limits, color options, profiles, rotation, scale factor, and more
- Intuitive user interface makes it fast and easy to save and modify settings

## Home Screen and Settings Menu

The Home screen links to the Dial and Digital Indicator screens, the Power Menu and the Settings Menu. The Settings Menu configures many Indicator features.

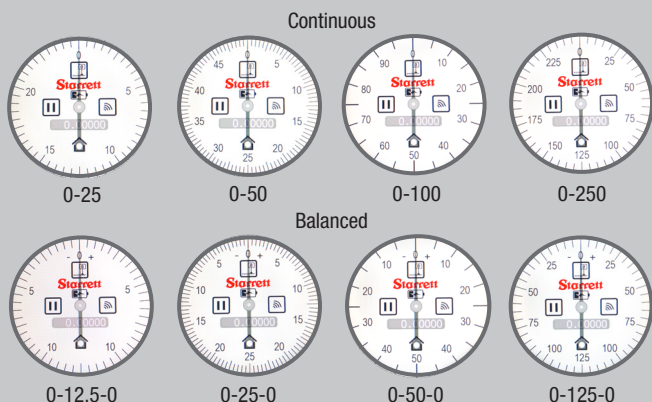

## Analog and Digital Indicators

The English and Metric Dial Indicators are a faithful digital representation of our customary dial indicators with some helpful digital options.

## Dial Reading

The Dial Reading Menu provides a range of numerical displays for English or metric.

## Graduation

The Graduation Menu offers selectable resolutions for English or metric.

## Presets

## Limits

## Profiles

## Rotation

## Color Options

Choose from four color options for the Dial Indicator background.
