Fred Fowler Sr.

Fowler

TOOLS AND MEASURING INSTRUMENTS

In 1946, 42-year-old salesman Fred V. Fowler, Sr. stumbled onto something unexpected: local machine shops desperately needed quality brooms and brushes. What started as a humble supply business grew organically as Fred listened to his customers, gradually expanding into inspection tools and shop equipment, building trust one relationship at a time.

When his son Fred Jr. joined in 1959, he saw the future in precision. Calipers, micrometers, indicators and other shop tools were in high demand as American manufacturing surged after World War II. After buying out his father, Fred Jr. steered the company for over 50 years, transforming that broom business into a respected name in metrology. His father lived to witness it all—passing away in 2005 at 101, having seen his simple supply operation become something far greater.

The company's boldest transformation came in 2011, when Fred Jr. asked his daughter Cindy and son-in-law David Francis to take the reins. David didn't just expand the product line—he strategically cultivated relationships with innovative partners worldwide, carefully vetting technologies and building alliances that positioned Fowler at the leading edge of metrology. It was no small feat. Transforming a hand-tool company to include sophisticated precision systems required equal parts technical savvy and relationship-building finesse. Fred Jr. passed in 2012, but not before seeing his vision for the company's future take shape.

When Pfingsten Partners acquired Fowler in 2022, they were investing in nearly 80 years of hard-won expertise, and a company poised to reach new heights in precision manufacturing and quality control.

Only about 1 in 1,000 businesses make it to the 80-year mark. Today, we give thanks to the leaders who built this legacy, and to the customers and partners who've allowed us to stand among the 0.1% of companies that have made it this far.

Fowler remains nimble, responsive, and focused on what customers will need for the next 80 years. When you choose Fowler, you're partnering with a team that brings scrappy, customer-first DNA to every relationship.

Height Gages

Fowler Sylvac Hi_Cal V2 Electronic Height Gages

For your finer, more delicate parts.

Features:

- Bluetooth for quick, easily recorded measurements
- Extra low measuring force, from 0.2N
- Measure internal and external diameters, centerlines, heights, widths, depths and MIN/MAX/TIR capability
- Battery life: 40 hours rechargeable during operation
- Touch sensitive probe speed for easy operation
- Base with small footprint

**ISO Certification available
for \$199.00 extra!**

NEW V1 & V1+ Electronic Height Gages

Introducing the next generation of Trimos entry-level height gages for the workshop.

Features:

- Accuracy: 0.0012"/0.03mm
- Bluetooth/RS232 data output
- Steel base and extra large display with simplified keypad
- V1 features a fine adjust hand-wheel for scribing (scraper included)
- V1+ features bi-directional measuring force hand-wheel for measuring bores, centerlines, heights, MIN/MAX/TIR
- Supplied with 0.236"/6mm ball probe
- Granite base units available as special order

Z-HEIGHT Height Gage

With handwheel and fine adjust.

Features:

- Base design has a more comfortable grip and is finely ground and lapped for smooth movement on surface plates
- Fine adjust feature allows precise adjustment to required settings
- Indicator holding bar included

Calibration certificate available.

Z-HEIGHT ABS PLUS+ Height Gage

Features:

- True ABS measuring system
- Supplied with a NIST certified test block (1" x 2" x 3")
- Large handwheel for both coarse and fine adjustments
- Carbide scriber
- Positive locking lever for scribing

Calibration certificate available.

XT-Series Holemikes

Vernier Bore Micrometers

Features:

- 3-pt contact with tungsten carbide measuring anvils above 0.5"
- Blind bore measuring heads featured above 0.5"
- Ratchet stop for consistent measuring
- Extensions available for deep measuring
- Includes UKAS certificates for all Holemikes and setting rings

XTENDER- PLUS+ Bore Gage Set

Our two most popular bore gage ranges combined in one easy-to-use electronic set!

Preset size of master for absolute reading and use minimum hold feature to lock on the bore size as the gage is rocked in the part to be measured.

• Fitted with a Sylvac Lifetime Warranty electronic indicator (54-530-535-0)

- Range: 1.4 - 6"
- Analog scale for reversal point detection
- IP54 rated indicator
- Carbide tipped anvils
- Min/Max/TIR readings
- Supplied in a fitted case

Check out the Bore Gage Setting Master Kits on pg. 59

Internal & External Electronic Caliper Gages

For grooves and recesses

54-554-611-0

54-554-711-0

Features:

- Accuracy: $\pm 0.0008"/\pm 0.02\text{mm}$
- Resolution: $0.0002"/0.005\text{mm}$
- Analog scale for reversal point indication
- Large, LCD display
- Preset capability

- Absolute and incremental measurements modes
- High-impact, aircraft aluminum case
- Rugged housing

Swiss Ultralight IV Electronic Calipers

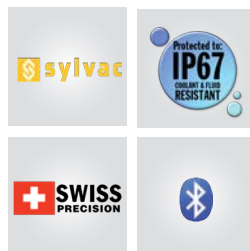

Available Up to
2.5m range

When you have
HUGE
parts to measure,
this is the caliper
you need!

Features:

- IP67 protected against fluid and dust
- Built-in Bluetooth
- Reinforced frame
- XXL display with 0.79"/20mm high digits
- Lengthened jaws 7.9"/200mm
- Includes upper ID measuring pins (5mm dia.)
- Movable left jaw
- Stainless steel titanium coated jaws
- Hold feature
- Preset function
- Min/Max functions
- Tolerance mode
- Internal and external measurement indicator

Alternative jaws available, contact the Fowler Technical Department for more information 1-800-788-2353

54-115-246-BT	USB Bluetooth Receiver	\$58.00	\$53.00

The Top 6 Reasons

This is the best caliper value on the market

1. Worry-free lifetime warranty
2. Fully integrated bluetooth, no additional equipment needed
3. IP67 for harsh & hard-working environments
4. Competitively priced versus other major brands
5. Operator friendly data collection software
6. Swiss precision & quality

More features

- Reinforced frame (3.5mm)
- XL display with 11.5mm digits
- Hold feature
- Preset function
- Available with ISO Cert
- 12"/300mm is supplied without depth rod

XTRA-RANGE[®] Carbon Fiber Electronic Calipers

54-100-140-0

Features:

- IP65 protected against fluid and dust
- Lightweight carbon fiber frame
- Stainless steel jaws with ID ribs
- ID/OD pressure device for repeatability
- USB data output (works with 54-520-399-0)
- Preset, ABS/INC, Floating zero, IN/MM, Hold function
- Super large display
- Fitted wooden case

Features constant measuring force mechanism

Premium Grade Dial Calipers

With mono-block housing for added protection.

The mono-block housing design of this Premium Dial Caliper aids in preventing debris from entering the gearing mechanism. The covered rack aids in preventing debris from entering the rack. This helps to ensure years of continued service and accuracy.

Calipers

Features:

- Tough shockproof gearing with ultra smooth movement
- 4-way measuring, inside, outside, depth and step
- Solid stainless steel construction with lapped measuring faces
- Heavy duty frame, 1.41"/3.6mm thickness
- 0.100" range per revolution
- 0.001" reading dial, 0.100" range per revolution

Interchangeable Anvil Bluetooth Depth Gage

Features:

- Supplied standard with mono-plane measuring probe
- Measure normal or inverted positions using the same probe
- Optional measuring inserts available
- Coolant proof, dust proof - IP67
- Bluetooth communication for error free data collection
- 4" measuring base. 8" & 12.5" base attachments available
- Available in 3 ranges. 8", 12" & 19"
- Frame made of hardened stainless steel
- Sleep mode after 20 minutes and automatic wake-up with movement

Sale \$1,569.⁰⁰

QuadraTest

Electronic Test Indicators

Features:

- Bluetooth connectivity to your phone or tablet
- IP65 protected against fluid and dust
- 4 measuring modes: Min, Max, TIR and Direct
- 4 measuring resolutions - 0.00005"/0.001mm or 0.0005"/0.01mm
- 1-1/2" diameter dial face rotates a full 360°
- Analog scale for reversal point indication
- Meets or exceeds DIN/ISO Standards (Maximum error on 0.00005" scale at full range: 0.0004")
- 54-562-890-BT is capable of interchanging contact point lengths

54-562-777-BT

Calibration certificates available for all sizes.

Clinotronic-S

The Clinotronic-S is a portable precision instrument for measuring inclinations up to $\pm 45^\circ$. The large, backlit, high contrast color display provides excellent readability even under adverse conditions in the workshop or under a machine.

The Clinotronic-S can be connected to an Android™ device, which can then be used as a remote display. This new feature makes the instrument much more versatile and suitable for many applications. It is built on the success of the Clinotronic PLUS, while retaining the features that made it famous, like its reliability and versatility, plus it adds the latest technology:

Features:

- Wireless functionality (APP wylerUNIVERSAL for Android™), USB cable as well
- Accuracy: ± 3 arc minutes at 45°
- User friendly
- Adjustable to local gravity
- Improved mechanical accuracy
- Excellent color display with low power consumption

Order No. 54-635-605-0

Sale \$4,795.00

List \$5,327.00

Clinotronic Plus

Clinotronic Plus is an electronic level with unsurpassed versatility. It is economically priced, uses a specially designed microprocessor and the well-proven Wyler inclination sensor.

Features:

- Range of $\pm 45^\circ$, capacity of 0-360°
- Accuracy: ± 3 arc minutes at 45°
- Resolution of 0.01° (selectable)
- Absolute or relative measuring mode selectable by push button
- Seal-tec technology for excellent performance even in difficult environmental conditions
- Interface connection RS-232 is integrated. Special purpose cables available
- No loss of calibration data by power failure
- Response time: value available within 5 seconds
- Repeatability: $< 0.01^\circ$
- Linearity: 3 min. of arc + 1
- Housing: aluminum hard anodized.
- Dimensions: 4 x 3 x 1"(100 x 75 x 30mm)

Sale \$4,275.00

Bore Gage Setting Master Kits

Fowler's Bore Gage Setting Master Kit is used for accurately setting any bore gage up to 6"/150mm in diameter to an accuracy of 0.0001"/0.003mm.

Each Set includes:

Setting Device

- Base anvil: 3.950" x 1.050"
- Adjustable anvil: 2.375" x 0.375" (two of each)
- Internal capacity: 6"/150mm
- Centralizer capacity width: 2.750"
- Quick-release holder for fast adjustment

Economy Gage Block Sets

Inch model:

- 36 piece
- Tolerances to 0.00005"
- Certificate of Calibration to NIST

Metric model available.

10x Pocket Optical Comparator with 9 reticles

Fowler's 10x Pocket Optical Comparator magnifies images which are sharp, undistorted and free of aberrations. Convenient for checking angles, thread measurements, hole sizes and more. This 10x comparator is widely used by machinists, toolmakers and inspectors in the industry.

Features:

- Scales are photo-etched into a glass reticle which is placed in actual contact with the measured object, obtaining simultaneous enlarged images of the scale.
- Reticles (protected in individual plastic cases) are easily interchanged by a screw-in mount.
- Measures radii, diameters, angles, hole sizes, pitch and thicknesses.

Sale \$153.00

List Price \$179.00

Order No. 52-664-009-0

The X-Pro Portable Roughness Tester II can be used for various applications by selecting from a variety of accessories including special application probes and a swivel stand.

RS232 data output is available on additional models (contact the Fowler technical department for more information 1-800-788-2353)

(X-Pro shown with optional stand with swivel)

Features:

- Small, compact size
- 2 selectable parameters: Ra and Rz
- Large LCD display
- Meets ISO and DIN standards
- NIST traceable specimen included
- Uses 9 volt battery (approx. 3000 measurements)
- Special application probes available

X-Pro Portable Roughness Tester II

Order No.	Description	List Price	Sale Price
54-410-500-0	Portable Surface Roughness Tester 0.0004" probe (NIST specifications)	\$2,808.00	\$2,528.00
54-410-600-0	Portable Surface Roughness Tester 0.0002" probe (DIN specifications)	\$2,808.00	\$2,528.00
54-400-896-0	Adjustable height stand for roughness testers	\$740.00	\$666.00

Tool Set 300 Presetter

Used for the quick checking of heights and diameters (radii) of various types of machine tools. Accuracy is guaranteed by a precise steel measuring column and displacement devices in X and Z coordinates utilizing constant measuring force.

Tool Holding Spindle

- Tool presetter is supplied with high precision tool pot (Grade 0)
- ISO 40 or 50 taper
 - Less than 0.00008"/0.002mm concentricity error

Features:

- Measuring range: (X)11.8"/300mm, (Z)15.7"/400mm
- Min/Max functions for TIR readings
- 2 reference indications
- Preset and Tolerance value inputs
- Radius or diameter indication on X-axis display
- Resolution: 0.00005"/0.001mm
- Floating zero function anywhere within axis range
- Carbide measuring insert for durability
- Counter balanced measuring carriage
- Constant measuring force in both axes
- High precision Swiss measuring system

54-188-300-0

Order No.	Description	List Price	Sale Price
54-188-300-0	Tool Presetter with 50 Taper Tool Pot	\$21,511.00	\$19,362.00
54-188-304-0	Tool Presetter with 40 Taper Tool Pot	\$12,507.00	\$11,257.00

Steel Rules

- Tempered steel
- Etched, non-glare, black finish
- 5R graduations: 32nds & 64ths, 10ths & 100ths
- 4R graduations: 8ths, 16ths, 32nds, & 64ths
- 16R graduations: 32nds, 64ths, 50ths, & 100ths
- Flexible rules: 0.020" thick
- Gold rules are titanium coated

Order No.	Graduation	Flexibility	Finish	Size	List Price	Sale Price
52-295-006-0	4R	Flexible	Satin Chrome	6"	\$16.00	\$14.00

Pocket Steel Rule

- Rounded edge prevents damage to shirt pocket
- Rule width: 0.470"
- Inch graduations are in 64ths
- Rule thickness: 0.021"
- Metric scale is in 1mm increments

Order No.	Description	List Price	Sale Price
52-380-100-0	6"/150mm Pocket Steel Rule	\$11.00	\$10.00

THE FUTURE OF INSPECTION

AUTOMATED ROBOTS + OPTICAL SCANNING

Let the robot handle repetitive inspections & free up resources for other tasks

Techman collaborative robot for picking parts

3D Camera identifies part from pick bin

Robot places part into inspection solution

Live data

Touchscreen controls allow for quick changes, monitoring, and running different inspection programs

Robot moves part from inspection solution to sort based on inspection classification

1 See

3D camera precisely identifies and locates your parts, even when they're randomly arranged in a bin

2 Pick

The robot arm intelligently picks a single part and transfers it with fluid precision to the Inspection Solution

3 Inspect

The part is placed into the Inspection Solution for a complete, non-contact inspection in about 30 seconds

4 Sort

The robot takes the part and places it into a "Pass," "Fail," or "Rework" bin based on the inspection results, providing actionable, error-free quality data
